

**AESTHETIC
RECONSTRUCTIVE
JAW SURGERY**
SINGAPORE

Are you looking for a skilled and experienced Singapore oral and maxillofacial surgeon to handle your dental implant placement, wisdom teeth removal, or jaw surgery? Or perhaps you need treatment for facial trauma, sleep apnea or TMJ. If so, you have landed in exactly the right place. Dr. Chan is a leading Singapore oral and maxillofacial surgeon who has, throughout more than 20 years in practice, earned a reputation for providing exceptional care to each and every patient he serves. Please read on to discover the many reasons you should choose Dr. Chan to provide the care you need.

Meet Dr. Chan

Dr. S.L. Chan is a prominent Singapore dental surgeon who specializes in oral and maxillofacial surgery. He has the training, qualifications and experience necessary to treat and manage a broad range of problems affecting the mouth, teeth and face. He has taken a special interest in reconstructive jaw surgery related to dental implantology and corrective jaw surgery to treat dento-facial disharmonies, areas in which he has undergone advanced training. Other areas of expertise include the diagnosis and treatment of facial fractures, injuries or pain, wisdom teeth removal, correction of cleft lip or cleft palate, and pre-prosthetic surgery, among many others. So whether you see him for a simple wisdom tooth extraction or extensive orthognathic surgery to correct issues like overbite, underbite, open bite or cross bite, Dr. Chan can offer the quality, individualized care you need to achieve the very best possible result.

Education

Dr. Chan earned a Bachelor of Dental Surgery (BDS) from the National University of Singapore in 1989, then served as a Dental Officer in the Singapore Armed Forces. After being in private practice as a general dentist for two years, Dr. Chan went on to study at the University in Hong Kong, where he acquired advanced, hands-on training in surgical techniques and anesthesiology while earning a Master of Dental Surgery in Oral and Maxillofacial Surgery. After completing those degrees, he became a Fellow of the Royal Australasian College of Dental Surgeons and a Fellow of the Academy of Medicine, Singapore.

Leadership Positions, Appointments, and Professional Memberships

Dr Chan has earned a number of prominent leadership positions in Singapore dentistry, as well as many professional memberships and accolades. The list of these is quite long, so rather than detail them all, here are a few highlights: Dr. Chan has served as President of Singapore's Association of Oral and Maxillofacial Surgeons, Chairman of the Chapter of Dental Surgeons of the Academy of Medicine, Singapore, and Chairman of the Singapore Regional Committee of the Royal Australasian College of Dental Surgeons. He is a long-term member of the Singapore Dental Council and has served as Chairman of its Credentials Committee. He has served the Ministry of Health in several positions, including as Chairman of the Oversight Committee for Aesthetic Facial Procedures for Dental Practitioners and Chairman of the MOH-AMS Clinical Practice Guideline Workgroup on Dental Implants in Management of Edentulism.

Dr. Chan is currently serving as a member of the Dental Specialist Accreditation Board of the Ministry of Health, Singapore, and was appointed as a Course Director of the Apsun Dental Implant Education and Research Centre, Korea in 2006. Dr. Chan also teaches in the Department of Oral and Maxillofacial Surgery and the Centre for Advanced Dental Education, National University of Singapore.

By now you may be wondering why, exactly, these professional positions and accolades should matter to you as a potential patient. They are important in that they show that Dr. Chan is well respected among colleagues and patients and is up-to-date on the latest research, techniques and technology. He is actively engaged in his professional community, passionate about his work, and is committed to improving the standard of care for all Singapore dental patients by mentoring and educating the next generation of dental professionals. All of these factors, taken together, create a picture of a seasoned, knowledgeable surgeon who can be trusted to perform according

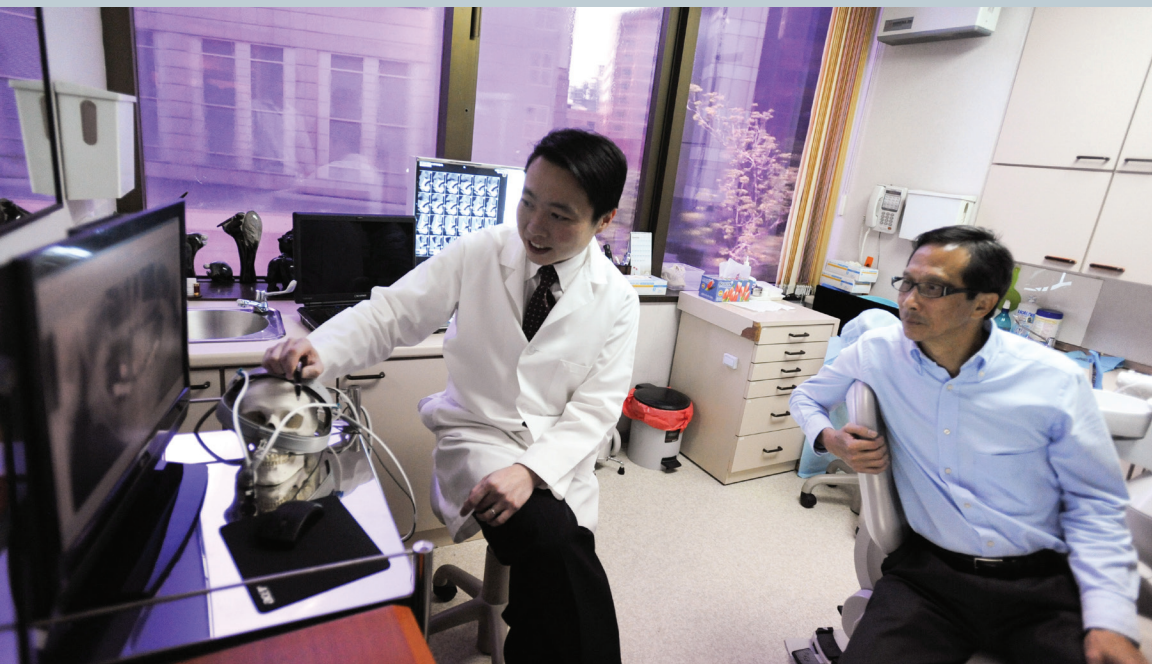

to exacting professional standards – standards that can only benefit you in terms of high-quality care.

Take an Office Tour

The Offices

Now that you know a little more about the advanced training, skill and experience that Dr. Chan has to offer, we'll get into the details of what you can expect when you visit his practice. The offices of Aesthetic Reconstructive Jaw Surgery are conveniently located in the Mount Elizabeth Medical Centre, close to Singapore's iconic Orchard Road.

Aesthetic Reconstructive Jaw Surgery is a state-of-the-art practice, outfitted with the most modern, top-quality equipment and technology to aid its staff in providing the highest level of care to each and every patient they serve. Among the state-of-the-art technology you will find available to you at Aesthetic Reconstructive Jaw Surgery are advanced 3-D imaging, virtual reality software and computer-guided surgical technology, advancements that provide higher levels of safety and accuracy during dental implant placements and other oral surgery procedures.

You will find the offices scrupulously neat, clean and sanitary at all times. Our waiting areas are designed with the patient in mind, modern, bright, attractive and comfortable. As pleasant as those offices and waiting rooms are, Dr. Chan's staff always do their best to ensure you do not have to wait very long for your scheduled appointment – after all, they are very aware that your time is valuable, and unnecessarily, long waiting times can be very annoying and upsetting for patients.

The Staff

When you visit Aesthetic Reconstructive Jaw Surgery, you will be greeted by a courteous, helpful and professional staff who are dedicated to ensuring that the time you spend with them is as comfortable and convenient as possible. Dr. Chan's surgical staff is composed of highly-trained, skilled and experienced oral and maxillofacial surgical assistants, who are tasked with assisting Dr. Chan with patient care, surgery and the administration of I.V. sedation. Administrative staff members are well-trained in all

aspects of health policies and are CPR certified for your safety. They are also knowledgeable about insurance matters and available to help you navigate the often complex and confusing insurance reimbursement process. Attention to detail is an essential part of this practice, especially when it comes to the quality of care and level of service provided to its patients.
